LAGNIAPPE

FOREWORD

Life is nothing more than a living example of the composite aims of men, so our aim has been to portray, through this volume of the Lagniappe, Louisiana Tech of 1929, amid its natural setting, the "hills of North Louisiana." This, then, is merely a record of that year's activities, as nearly perfect as we can make it. We hope the students, alumni, and friends of Tech will like "the memorial of all our efforts."

DEDICATION

The great invisible artist daily takes his brush in hand and paints his lessons in the beauty of nature---nature in all its harmonious tones! Louisiana Tech, look around you. Your message is painted in your own scenes of North Louisiana. Beautiful hills! Strong hills! Graceful and colorful hills! May your future, College of the Hills, be as full of beauty and color and strength as your natural setting! To the "Spirit of the Hills" and the future of Louisiana Tech, this Lagniappe is dedicated.

ADMINISTRATION

President

GEORGE W. BOND

To The Students of
Louisiana Tech

When in future years you read the pages of this chapter in the history of our beloved Louisiana Polytechnic Institute, whether your life has been blessed with material wealth and comforts or misfortune has brought sorrows and dissatisfaction, I would remind you that true worth is neither measured by pennies and pounds nor by that which one may be called upon to suffer, but rather by the amount of service one renders to society in the advancement of civilization.

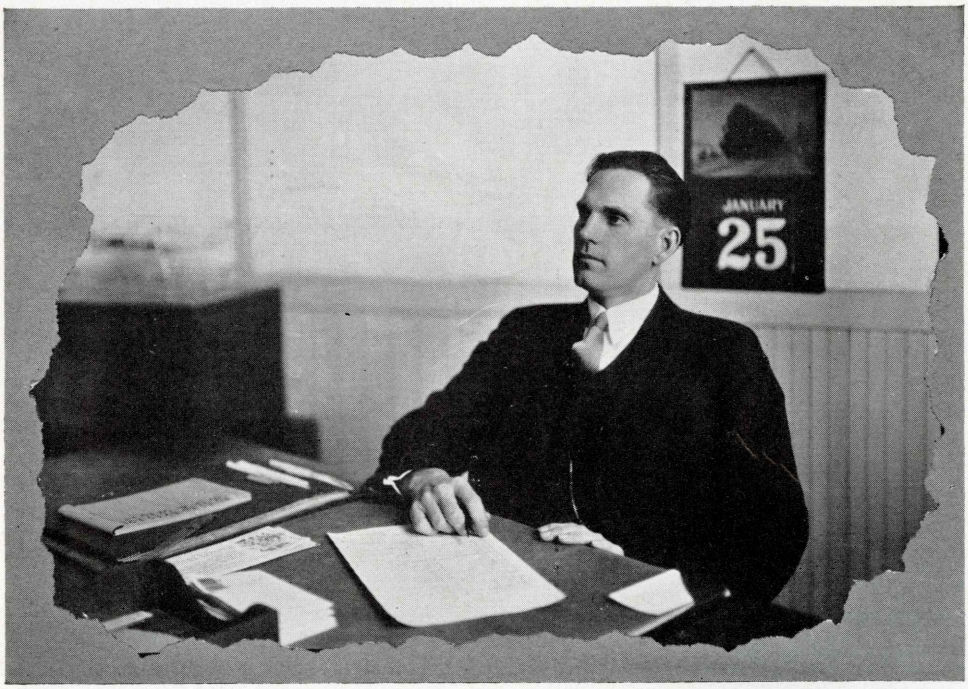

Many memories of campus joys will soon pass away and the ties of college friendships grow slack; but those elements of character, conceptions of progressive citizenship, habits of personal conduct, and ideals of right living formed during your stay on the campus will remain and will determine largely not only the success of your own life, but that of your Alma Mater, as well.

It has ever been the aim and the accepted task of Louisiana Tech to point to young men and women the goal of high ideals and to guide them in the pathway of progressive living. Every man is a part of that with which he comes in contact and his influence is far beyond his conception. Then it is the duty of every student to make his associations and contacts such that his life may count for the greatest possible service to humanity.

My best wish is that the future holds for you a record of which Tech will be justly proud and for Tech a record of which you will be proud. I invite you to keep in constant touch with your Alma Mater that you may rejoice with her in success and sympathize with her in misfortunes.

Sincerely,

G. W. BOND

DEDICATED
TO THE MEMORY
of
MISS JEAN MAUDE HARPER
beloved Dean and Professor,
died January 18, 1929.

Acting Dean of Women

MISS SALLIE ROBISON

To The Women Students
of
Louisiana Tech:

It is in college that we make our final preparation for citizenship. Let us make the most of it. Seize every opportunity to gain practical as well as theoretical knowledge.

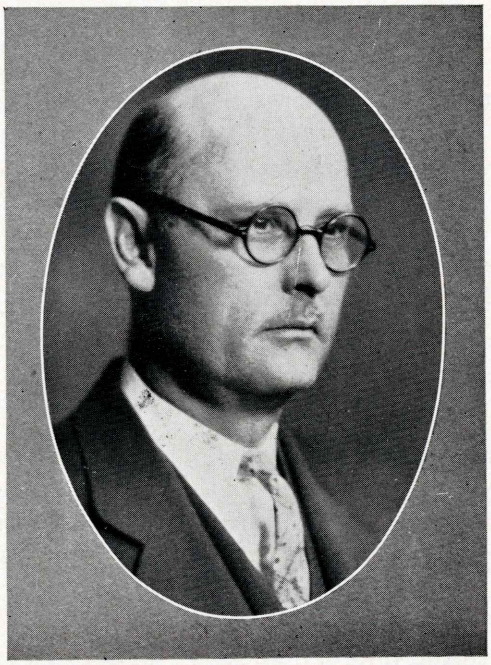

May your friendships, ideas, and ideals be such that will lead you to ever higher levels.

Sincerely,

SALLIE ROBISON

Dean of Men

W. L. MITCHELL

To The Young Men

of Tech:

The spring of Youth and Hope and Courage and Ambition and Learning has flowed at Tech, for many years. If you have found it, continue to drink of it. If you still have missed it, continue to seek it. It is still here.

W. L. Mitchell

SCENES FROM THE HILLS

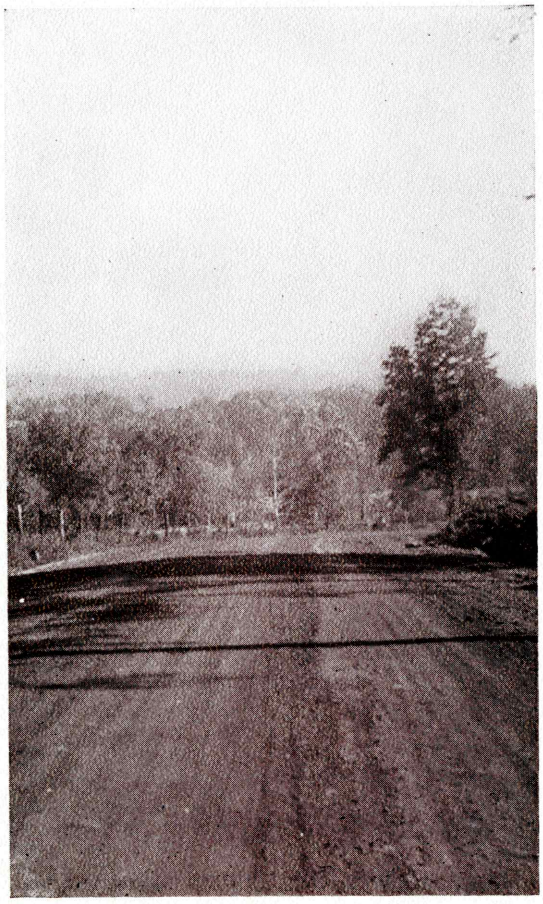

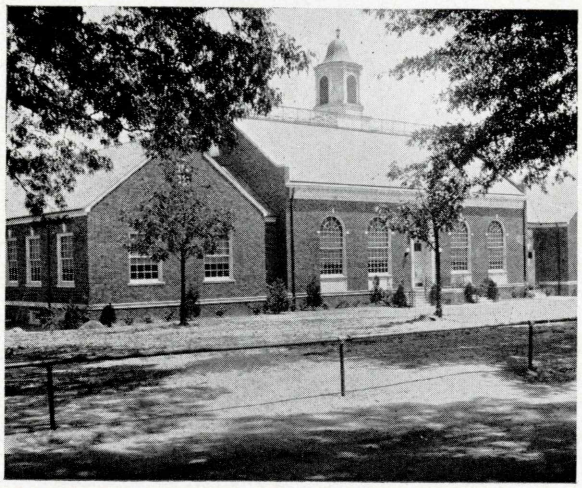

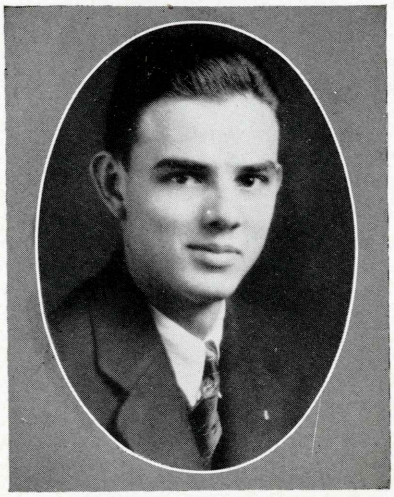

CLASSES

The layout for the 1929 Lagniappe Class Section is somewhat different from that used heretofore, and the editors hope that the plan will carry special appeal to the student body in general.

The opening of each class division is marked by the name and photograph of that particular class representative, who was elected by his classmates early in the college year. This is our method of "ballyhoo" for all classes, Seniors, Juniors, Sophomores, Freshmen; if it pleases you tell us about it; if it doesn't, remember that the completed work of an annual editor is generally the best that he can give you, under the circumstances of his particular working plane.

Classes--we commend your selection of representatives.

The preceeding section---SENIORS---marks the last appearance of those same faces in Tech's yearbook---the Lagniappe. In addition to the pictures of each, the individual data is still a greater memorial of their activities during their college career. In years to come, when time may have washed the memory of those things away, perhaps, he needs only to refer to his college annual. The record is there, his along with that of his fellow classmates---lest he forget.

The dividing line between the Juniors and Sophomores of '29 and the Seniors and Juniors of '30. Divided as classes, they appear, but in reality they are as one—one group, together with the other classes, working in behalf of Tech.

The 1929 Lagniappe Staff takes pride in this special section of the year's publication. The "Beauties and Features" represent the fruit of the staff's efforts in sponsoring a popular election which was a success in every detail. "Beauties" have been run as a specialty in other college annuals, and so have "Features" and "Popularity." The Lagniappe wanted "something extra," true to the significance of its name; as a result the staff compromised by combining "Beauties and Features."

In this section you have the college favorites. They are well known in all circles or else they would not by their appearance here represent popular opinion, each in his office. Their faces speak for themselves, and their background---and illustrative border---portrays the theme of the 1929 Lagniappe, "The Spirit of the Hills."

ATHLETICS

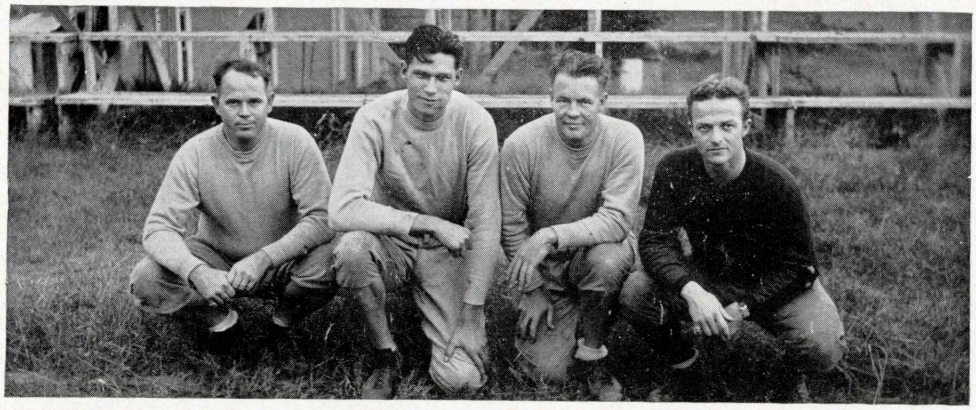

Director of Athletics

Coach F. A. "Tod" Rockwell, graduated from the University of Michigan, June '25; Athletic Director and Head Coach at Salem College of West Viriginia during '25-'26; University of North Dakota, '26-'27; Head Football Coach and Assistant Professor of Physical Education, University of North Dakota, '27-'28; now Director of Athletics and Physical Education at Louisiana Tech.

The Coaching Staff

On the left we have the well-known, Coach "Ernie" Shirley, director of Tech's pacing artists; on his left we have D. Robinson, an alumnus of Tech and assistant Frosh football coach; next in line we have "Ted," himself, somewhat small and insignificant in comparison with his checkered tie; towering on "Coach's" left we have Tech's beloved "big man", Jim Yeldell, head trainer, who is always on the job; next to the last man in line, we see Coach "Bob" Wynn, who has successfully led Tech's basketball squad to victory for the last three years; and last but not least in line, we have Coach L. J. Fox, Head Frosh and Varsity Baseball Director.

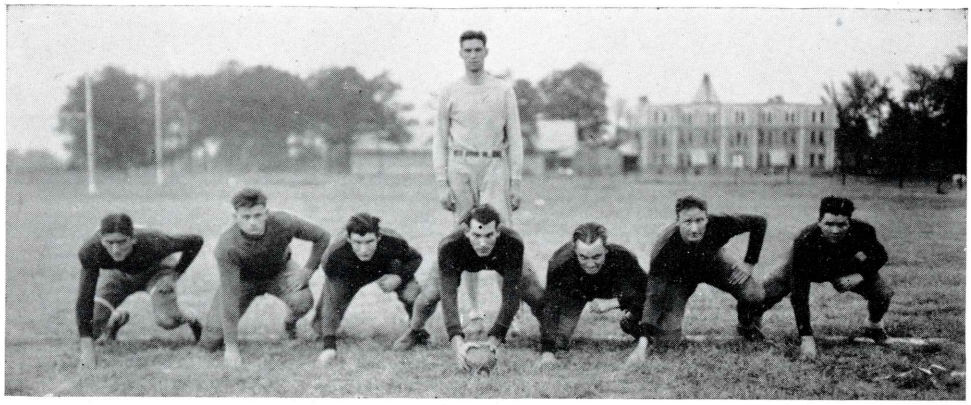

The Yell Staff

Here's the long and short end of Tech's line of boosters. "Dodo" Stewart, whose name is really Theodosia, but whose friends choose to use the title more in keeping with her diminutive height, and "Freshman" L. C. Curry, who towers above "Dodo" in height, and with his youthful personality sways the grandstand accordingly.

"Dodo" hails from DeRidder and L. C. from Coushatta. Both of these towns should be proud of their peppy products. Even though "Dodo" is small in height, she is right there with the rest of the gang; her voice can be heard above the din of the mob. L. C. is only a freshman, but he is a living example of the freshman talent that walks in the halls of Tech. What better combination could we wish for leading our cheering squad?

"Dodo" and Curry, we commend you on your success this year; you have been a mighty wave of strength behind Tech's athletic squad. Without you, the players could have done nothing.

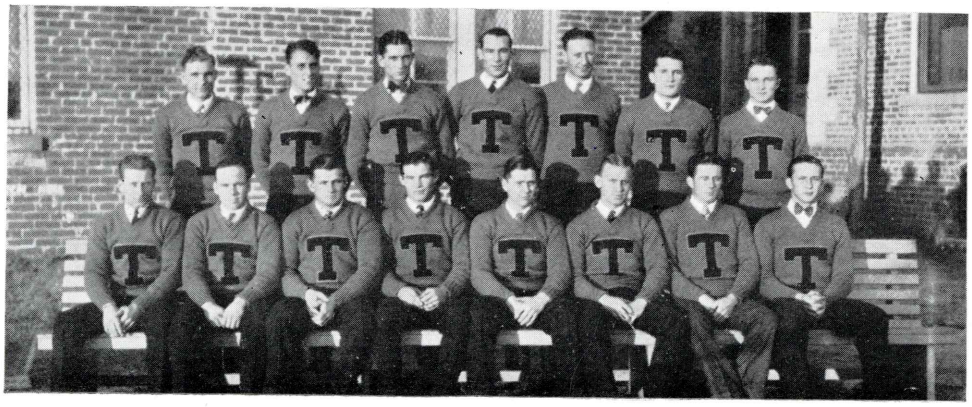

Football

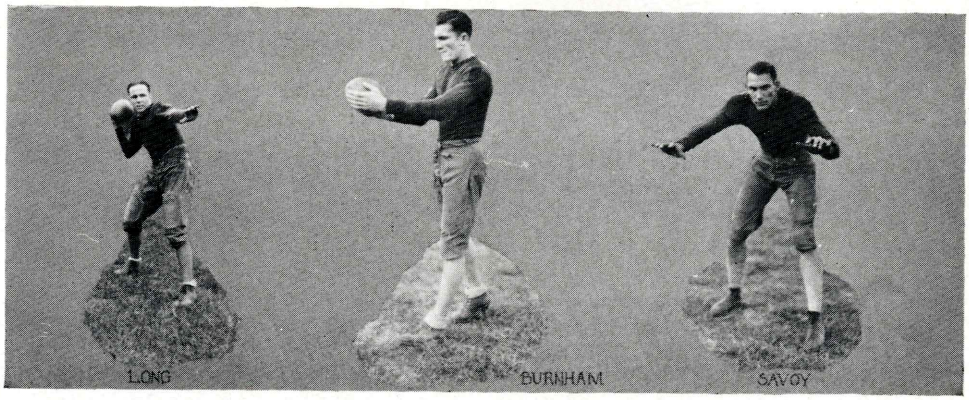

Here you have the line that we were all so proud of on Thanksgiving Day, backed up by the "Diminutive" Yelldell who took such good care of them. Beginning on the left you'll see Coates, Bolen, Gatlin, Savoie, Robinson, Peel and Sharmon. And what they gave Mississippi College. Do you remember time after time how they broke through the impregnable line of the Choctaws and threw them for such comfortable losses, how they annihilated their end runs, smeared their line bucks, broke up their passes, and cracked their criss crosses and trick plays?

Below, you see the Letter Men of Tech. These boys are the ones who have done such creditable work for their Alma Mater. Fifteen boys won letters, and it was with a heart full of pride in the boys and the splendid play that they have done that Coach "Tod" Rockwell presented the Tech sweaters.

The sweaters are Cardinal and Royal Blue. There had been some misunderstanding as to the exact colors heretofore, but an investigation as to the original Tech colors proved that Cardinal and Royal Blue were official, consequently they were carried out in the Letter Sweaters.

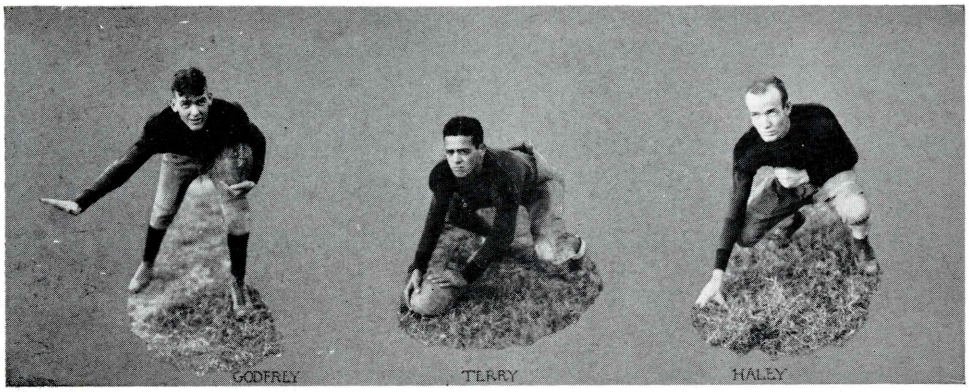

Quitman Long at fullback position is another of those football rareties. You see him here about to pass that ball down the field, how far depends on the receiver, because Long can heave a good fifty yards just as easily and accurately as he can fifteen. We might say that this is Long's specialty but he was of equal value to the team because of the way he could block. He cleared the path for many a goodly run of his mates, and when his turn came there was not a man who ran with more determination than did Long. In several games he demonstrated his ability in the punting department and was one of the best defensive men on the squad. He, more than any other man, kept up the fighting spirit of the team. The game was never over for this boy until sixty minutes of ball had been played. Two of his breath-taking feats this year were his turning of an intercepted pass into a touchdown for Tech in the Millsaps game and his fifty yard pass to Billy Hinton in the Choctaw game.

Note how Gale Burnham's eye is riveted to the ball. If you know anything about football you will appreciate this picture. It shows Gale at his best—the first step in his specialty—punting. In all the games played this season, Gale never met his peer in this department of the game. It is doubtful if there is another kicker in the south who can sail the leather as high, wide and accurate as can our own Gale Burnham. He produced the finest exhibition of punting in the Thanksgiving Day game that any critic could ask for, and that is only a part of his work. He was as consistent a ball toter as Tech had, an accurate passer and a splendid defensive man. He is the answer to many a coach's prayer. He is a triple threat man and only a Sophomore.

It will always be a pleasure for us to remember Pat Savoie's '28 football season at tackle and at center. At the early part of the season Pat began to give indications of what we might expect, but it was not until mid-season that he came to his own. He crashed through the biggest line that faced Tech and broke up runs before they were started. He won the Homecoming Game for Tech when he blocked a punt and fell on it for the winning points.

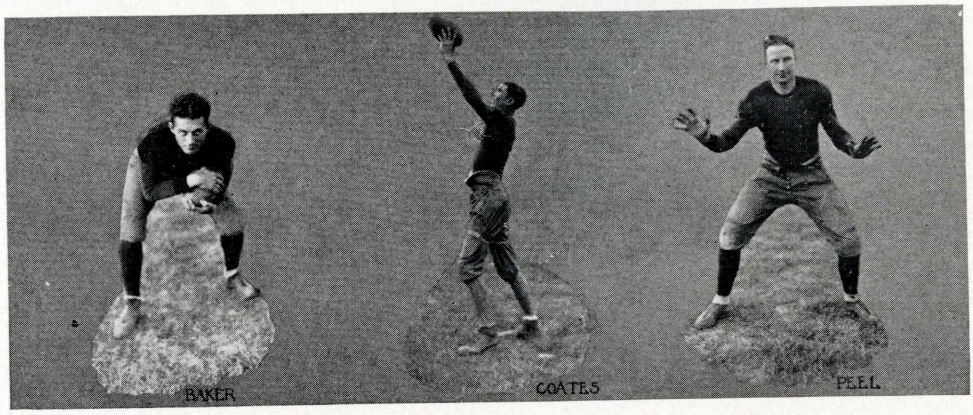

Jimmie Godfrey, the fast stepping Sophomore, was one of the best threats that Tech had, possessing a clear-thinking football brain and a pair of legs that obeyed his thoughts. Jimmie was taken out of the old game early in the season because of injury, and later left school. He is expected to be here with the goods when the training whistle blows next year.

This determined looking man is Hall Terry. He played center, and how! Handicapped by his weight, Terry more than made up for it by his fighting tactics and his determination not to be bested. Probably the lightest center in the college loop of the state, Terry was a big factor in the fight and spirit of the team. He is adept at dropping out of the line for pass de fensive work and doping out where they were coming through on the next play. He is one of those boys the coaches talk about, never late for practice or meetings and always de-pendable for any assignments.

"Lightning" Haley, a grim determined Junior, did not get in the game as much as his coaches would like to have him, but with the year's experiences and training, he willl be in there next year.

1928-29 SCHEDULE

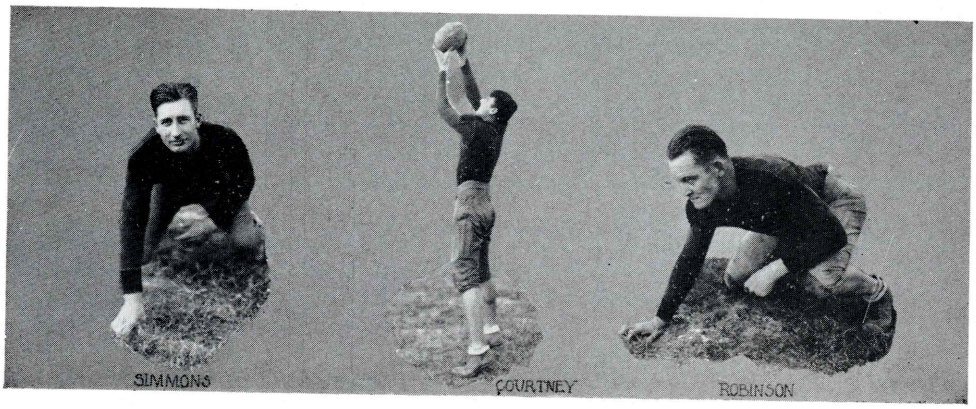

September 29---College of the Ozarks	Ruston
October 6---Clark Memorial College	Ruston
October 13---Normal	Natchitoches
October 20---Howard College	Monore
October 27---Union University	Shreveport
November 3---Southwestern	Lafayette
November 10---Millsaps College	Ruston
November 17---Centenary College	Shreveport
November 29---Mississippi College	Monroe

Alvin Baker told his coaches that he was a guard and they agreed with him but found that he was also a fullback. In the latter capacity Baker showed himself to be the hardest hitting man on the defensive squad. A few days before this photo was made "Bake" threw his face and being in the way of a Centenary ground gainer and the probiscis was fractured, but you can see how much attention he paid to a little thing like that. Baker is a tireless, terrible tackler and though he was in the backfield only a few weeks, he was a decided asset there because of his bocking tactics. It took a shifty man to keep Alvin from bowling him over like a ten pin. Count the yards he will gain for his team mates next year.

Skeet Coates, "Tech's Best Athlete," represents the main event in this view and we could not have found a better picture of him than this one unless it would be to have him tackling an opposing punt catcher just as he was taking his first step. Skeet endeared himself to all his friends in the way he could get down the field under a punt and be there before the ball hit the ground. He was the best pass catcher on the team, blocked tackles in a splendid manner. All this leads you to believe that Skeet is an end and that he is representing the best that Tech had to offer. Well, its true.

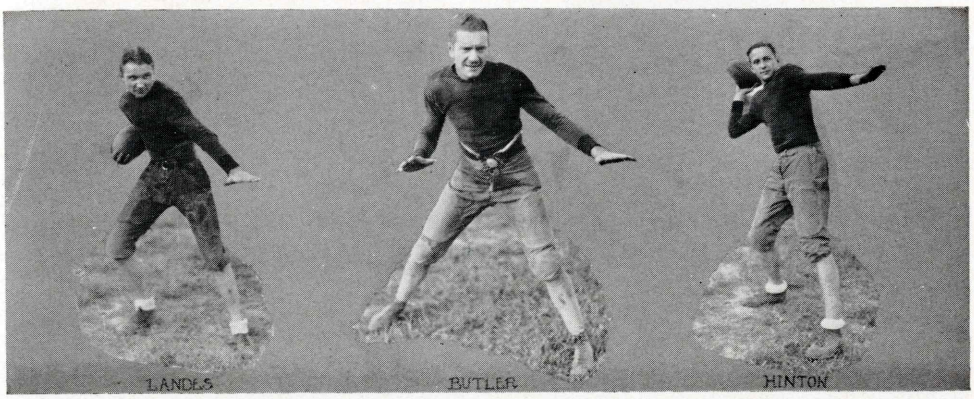

Dennis Peel played a vital part in the Fall football campaign. Starting slowly, before the season was over he was the most feared line man on the squad. In the great Homecoming Day game with Millsaps, Peel broke through the line and blocked a punt, recovered it for the safety and put Tech in the lead. Big, strong and rangy, possessed of one of those rare fighting hearts that loves it most when the smoke is thickest, speed and worlds of it—a real lion hearted fighting Tech Bulldog. He tore through lines such as Centenary, Mississippi College, Millsaps and the rest of them inspiring his team mates and delighting the fans. He will continue to develop.

Looking you right in the eye here is "Amos" Simmons, the sophomore quarterback who gave his best to his team mates and his Alma Mater this year. He was one of the surest punt handlers on the squad, and adept at the art of side-blocking. He will be back next year and will be catching passes with the same abandon that he did this season. This ability is one of Simmons' specialties. It was seldom on a forward pass play that Simmons was not in the open.

Yes, this is Fred Courtney, who started out in the beginning of the season being a substitute end but who finished by making his letter. As the picture would indicate, Courtney was at his best when down midst the opponent backfield spearing passes. He gets up in the air to take them too. Whenever there was a Bulldog punt you'd generally find Courtney on the job making tackles before any damage could be done. Courtney is another of those Sophs who will make the Tech team a feared one next year.

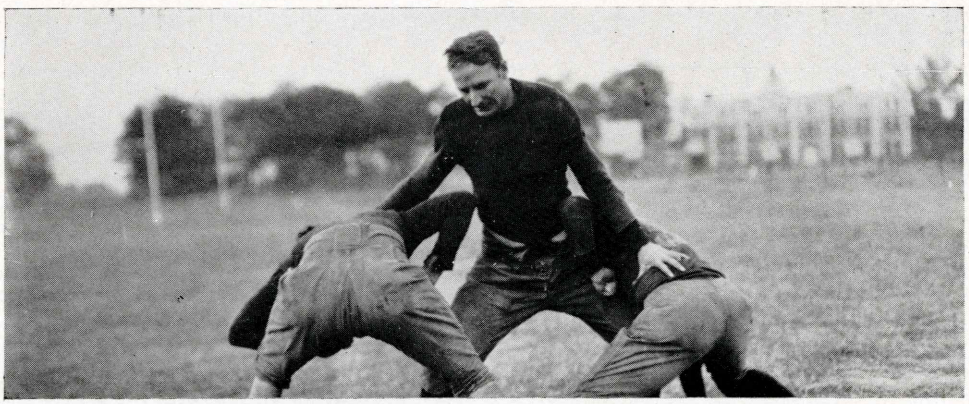

Claude Robinson at guard, and this is about how he looked every time a signal was called. Guards are supposed to play low and stop everything that comes through that line any place near them. Do you remember how many times the boys piled up and then after they unwound you'd find Claude at the bottom of the heap? That's when this Bulldog liked it best. Claude recovered many fumbles for his team mates this year and we will miss him when the fun begins next year. Robinson graduates this June. He, with Lane Sharman, was given a gold football for valuable play during the season.

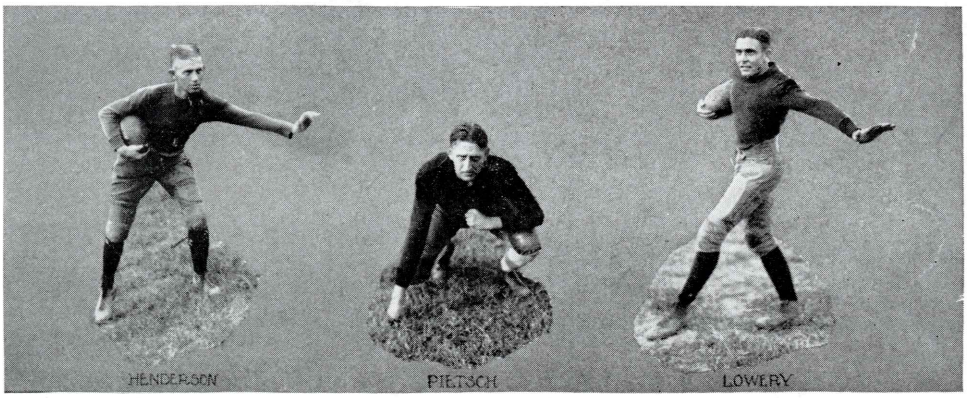

Gene Landes ,halfback, from Ansley. Landes represents that type of ball player who surmounts severe handicaps. Weighing 140 pounds, he so impressed his coaches with his speed and determination to keep everlastingly at it that toward the end of the season, he became a regular. This is Landes' first year of football and the next two years will see him develop into a real back field threat for the Bulldogs.

Walter Butler, big tackle from Monroe, known to all his classmates as "Red" and to all his opponents on the gridiron as a hard fighter and a man to be feared. Every football squad has at least one comedian, and "Red's" funny cracks all through the season kept his team mates in good spirits and in better mental shape for the hard schedule that faced them.

Berry Hinton played little or no football until this year. He will be remembered as primarily a basketball star. But this year Billy answered the anxious call for football material and before the season was over he had won his letter and developed the reputation of being the best forward pass defensive man on the squad.

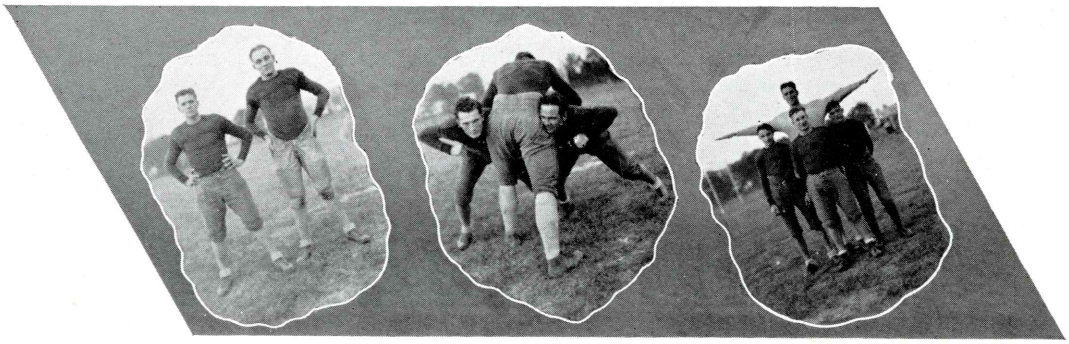

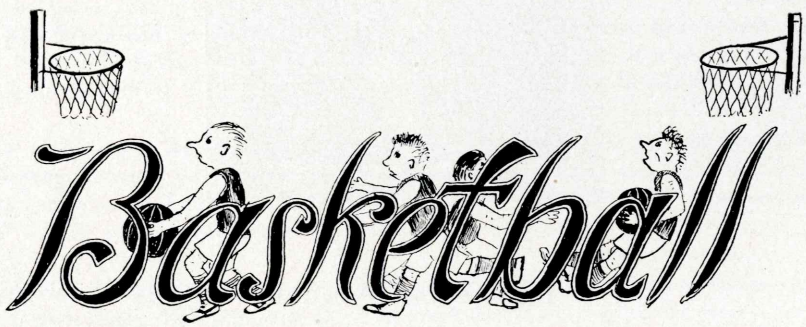

And here is Nathan Henderson, the hard hitting quarterback who played most of the games without a headgear. Despite injuries which kept him from weekly scrimmages, Nate was always on hand when the whistle blew on Saturday. He was one of the most accurate tacklers we had on the squad and one of the best blockers, besides saving touchdown after touchdown as defensive quarterback. With this year under his hat and belt Nate will continue to cause trouble for Tech opponents.

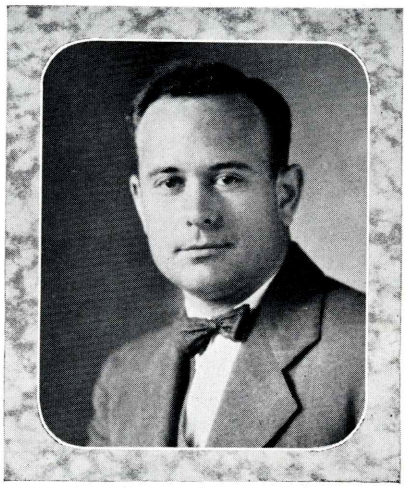

Rudolph Pietsch came to us this year without any previous training or experience on the football field. It did not take him long to rate a place at guard. He developed readily and proved to be one of the hardest men on the team. Of tremendous strength he will bear watching and another year of football training will find him right in the old game for Tech.

Lowery, fast stepping, rugged halfback who will bear watching next year. He is one of the fastest men on the squad and onec he got beyond the ine of scrimmage it took a vicous tackle to bring him down. His coaches are convinced that next year he will be a terror to any line that is put up iin front of him.

Below on the left, you have Sharmon and Claude Robinson, who have made their last appearance in a Tech football uniform. It is due to their efforts that Tech whipped Millsaps and made such a good showing against Mississippi College. We hate to lose men of this type but we are glad to see them graduate and to go into this worldly gridion as Tech Grads.

Basketball

Basketball Coach

Coach "Bob" Wynn, who has produced three winning teams in as many years at Tech. Coach Wynn is, besides an athletic director, a member of the mathematical teaching corps of the Louisiana Tech faculty. "Coach" has won for himself, through his scientific instructions in handling the "ball of the basket," a position of eminence in the hearts of Tech supporters.

With Coates, Yelldell and Billy Hinton to form a nucleus for his '29 Basketball squad, Coach Bob Wynn had the brightest prospect that a Tech cage mentor had to look forward to in some years. Add to that the fact that Harold Wise, crack player of a previous Frosh team, was back in the halls of Tech and was a sure starter at one of the forwards.

The season began with a Root Refinery outfit from El Dorado handing the Bulldogs a neat trimming, although not a severe one. It seemed that the Tech men were hardly in their stride and then some of us will remember that the Root team had with it the one and only "Tubby" Davis, and the great basketball star, "Chief" Cole.

Following this initial defeat, several games were played with local teams of this section, including Brown Paper Mill, Arkansas A. & M., and then Tech stacked up against the College of the Ozarks. Wynn's men defeated this strong aggregation in the two game series, and the followers of the game looked forward with considerable interest and anticipation to a winning season.

Still smarting under the defeat that the Root team had administered the Bulldogs tackled them again and trounced them on two more occasions. The work of Wise and Yelldell had stood out preeminently throughout the earlier part of the season. Yelldell was a veritable tower of strength on the defense, and Wise could not be stopped at forward. An injury to Hinton's leg marred the next few games of play. This remarkable basketball player was Wynn's high point man in most of the games in which he played. With Hinton out and the Centenary game in the offing, things looked bad for Tech, and then Big Jim Yelldell was ruled ineligible for further competition.

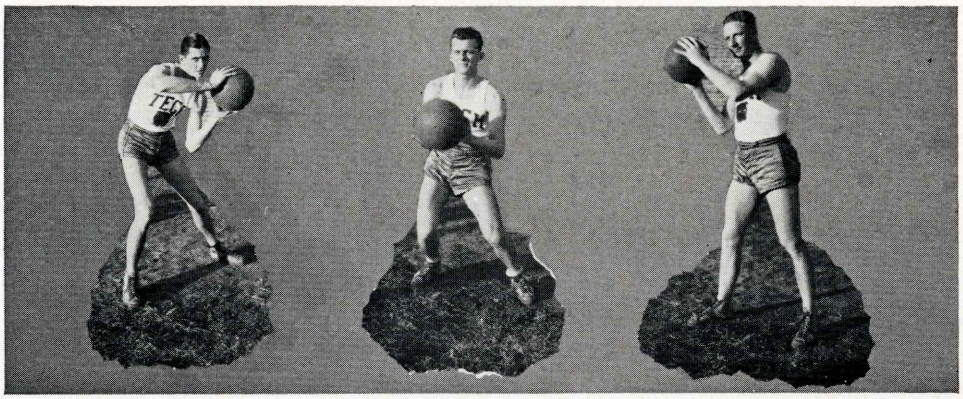

A demoralized team met Centenary and played two fast games but came out on the little end of the score in both scraps. Weakly, thrown into the breach when Hinton was out with his leg injury looked like a comer to the coach, and Peel began to develope proclivities which later made him one of the outstanding members of the team, playing at guard in the place of Yelldell.

A big crowd greeted the Louisiana College series. These games marked the resuming of athletic relations between the two schools and everyone was anxious to see Tech put over a double win. The first game resulted in a thrilling victory for Tech. Savoie, playing at center, completely baffled any attempt to keep him from scoring under the basket. Peel continued to develop and it seemed to all of us that the Bulldogs had settled down to a steady string of victories. In the second game of the series, however, the Louisiana College boys reversed the situation and eked out a victory after having caught the Tech men a little over-confident.

The next thing on the program was a trip to the southern part of the state to play Louisiana College, Normal, and Southwestern. At just about the time when the boys were warming up to the first game of the trip with Louisiana College, Coach Wynn received word that Coates and Wise were ineligible. Distracted, the team bolstered up by Weakly and Sherwin, set a pace that could not be met by the college boys from Louisiana and won the game in the most outstanding victory in Tech's basketball history. Hinton was now the only veteran left on the team and it seemed impossible that the boys could keep up this remarkable pace. The next night Louisiana College, infuriated at being defeated by a group of Tech subs, stepped on the gas and finally came out winner by a very close margin.

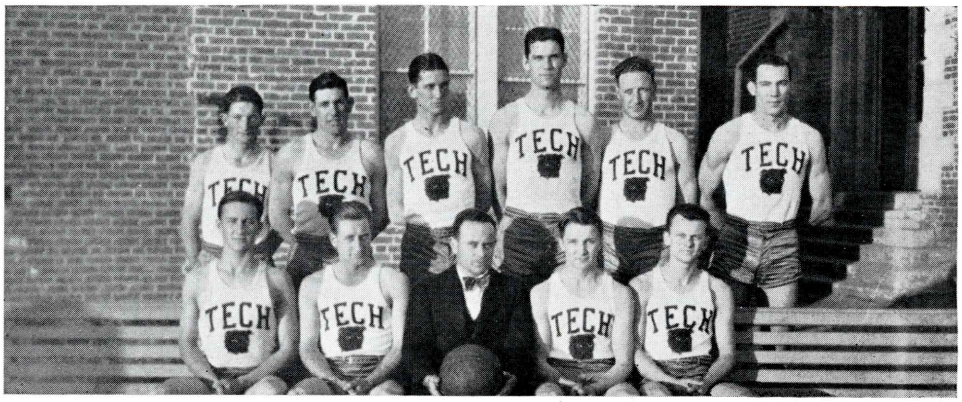

Then followed games with Normal and Southwestern. The team began to show the strain under which it had been placed when two of the regular veterans had been ruled out. It was practically a new team that had to be developed overnight and a great deal of credit to the coach and the boys for the splendid brand of ball they put up in spite of the annihilating handicap eligibility rules had put them under. One game was won on the trip and the boys returned home to go right back on the road again, this time to the east to meet Mississippi

College and Millsaps. The first game of the trip was lost to Mississippi College and then things began to happen. For Coates was declared eligible by the executive committee of the S. I. A. A. and the next night Tech whipped Mississippi College and traveled over to Millsaps and gave them a double lacing in as many consecutive nights. The Tech folks began to brighten up and the boys came back home to hook up again with Mississippi College, this time at home. Tech put the one game played in its bag.

Why it is that Tech can lead Centenary any time during the game except the last thirty seconds is a problem, but that's what happened, with the result that Centenary won both games on the home court.

The next presentation was Normal, on Tech's court for a return series. Prather came over with his crack team of cagers, confident that he could repeat his double win over the Bulldogs, but Tech began hitting her stride and the basket, and put Normal down quite comfortably. In the second game Normal reversed the decision after playing some whirlwind basketball.

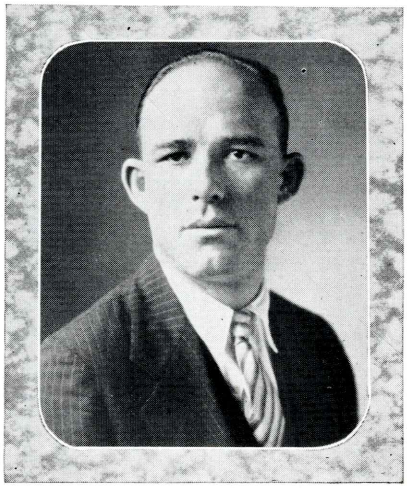

The games scheduled with Southwestern, at Ruston, were cancelled owing to the proximity of the tournament at Jackson and the fact Southwestern was out of the running for championship. Owing to the general mixup in the ineligibility and games won and lost, under these conditions Tech was chosen to represent the third district, along with several other teams, in the annual S. I. A. A. Basketball Tournament held at Jackson, Mississippi.

As we go to press the boys are on their way to Mississippi. We trust that they will carry on for Tech in the same manner that they have throughout the season. A great deal of credit is due the boys and Coach "Bob" Wynn for the spendid morale and fighting spirit that was maintained through the season and which resulted in some thrilling upsets and splendid basketball.

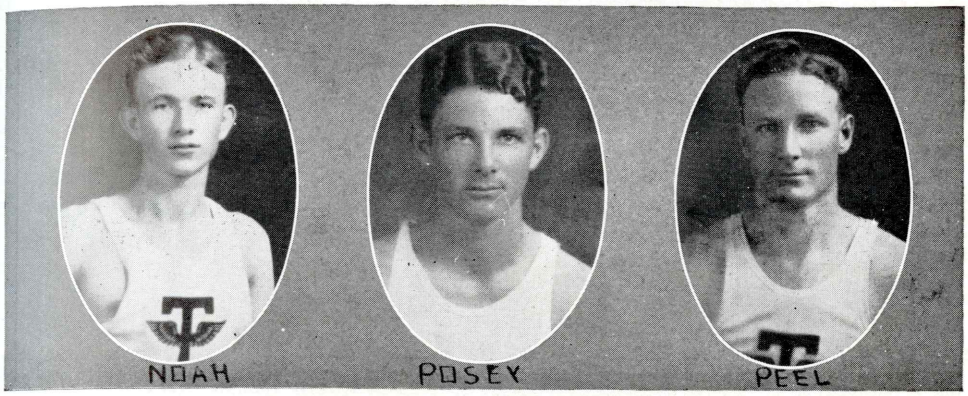

The '29 season will stand out for many years to come as being a banner year for catastrophies due to ineligibilities, ruled by the conference authorities.

Track

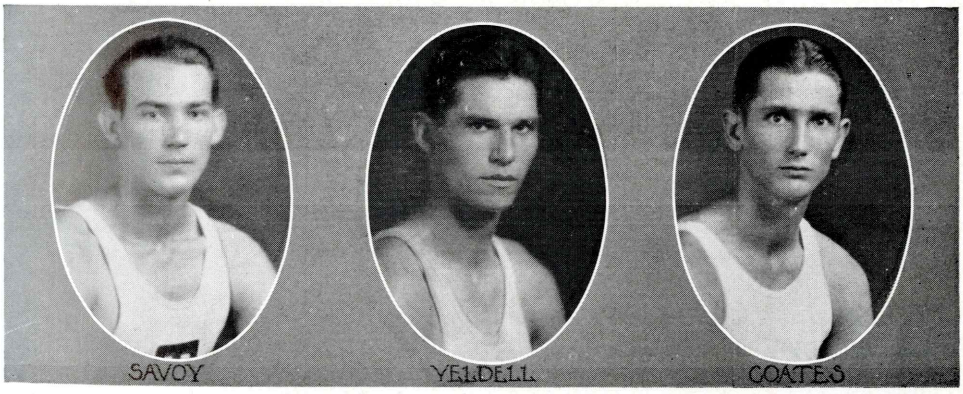

Track Coach

"Coach" Earnest M. Shirley, hails from Louisiana State University, and for the last three years has been Instructor in Mathematics and director of Tech's track squad. It is through his "earnest" and untiring efforts that the field of track has reached its present successful plane.

The initial appearance this year of the Bulldog pacing artists marked the second anniversary of Tech's venture into the track and field events. Coach Shirley's first attempt to revive the pacing sport was made last year when he assumed control of the sport, which had remained in dormant state for many years. He piloted the locals to an enviable position among the Southern squads, besides developing several illustrious stars.

The Bulldog's spirit and the greyhound's fleetness combined to take Centenary's measure in the first meet of the season. The members of the Bulldog squad won first place in every track event and placed first in the discus throw to defeat their ancient enemy 69---43 count. Marion Lowery, letter man from last year, led the Techman in points scored by winning first in the 220-yard dash, high and low hurdles. In the low hurdlles he completely outclassed Herdanz, who failed to place. Captain Jim Yelldell won Tech's victory in the field's event. He hurled the discuss far beyond any of the Centenary entrants, even bettering his last season's record.

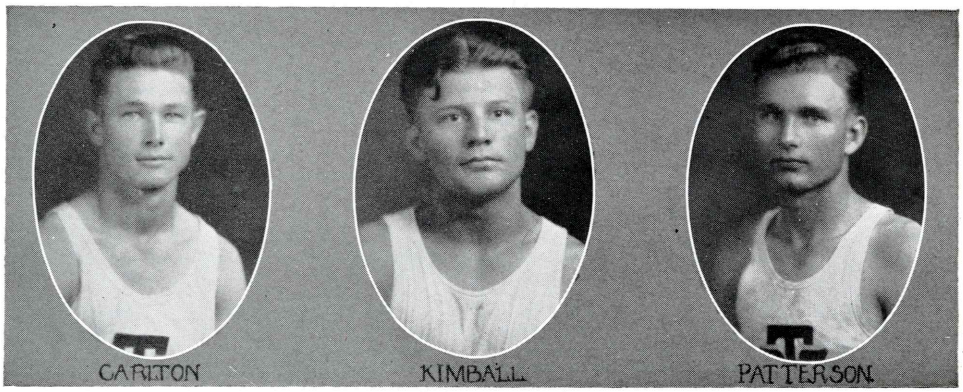

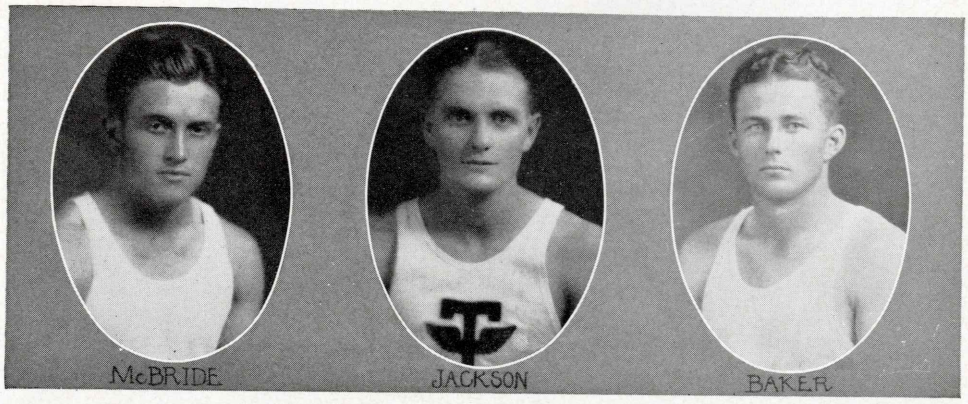

Because Tech entrants won only one first place in the field events does not indicate that the bulldogs have no strength in that division. Tech won three seconds besides the first in discus of six field events. Peel and Jackson tied for second place scoring honors. The two mile race turned out to be an all Tech affair, after Faulk, the rivals only entrant, dropped out, Shepard finished first, Wafer second, and McBride and Posey tied for third.

The following week Coach Shirley took a limited number of his men with him to ElDorado where they easily won an open meet.

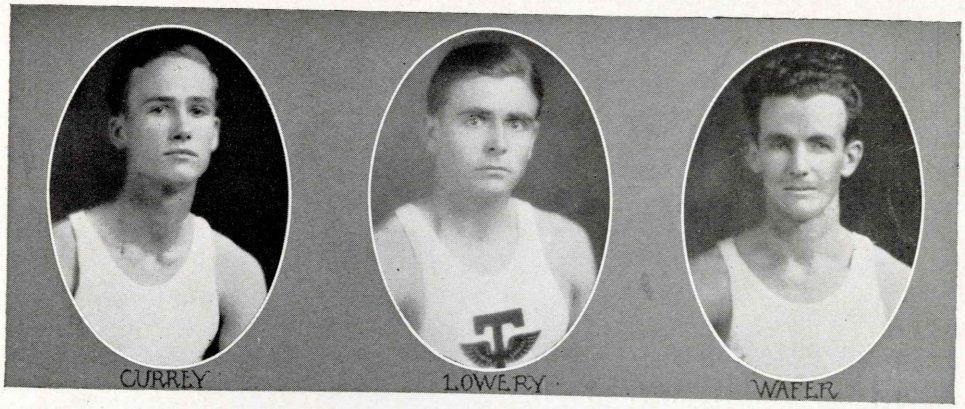

The Techmen, however, fared a little worse in the triangular meeet, for the Southwestern Louisiana Institute track team won first, Mississippi College second and Tech third. Tech placed first and third in the mile run, Jackson and Noah of Tech and Blane of Mississippi College were the winners. Yelldell came within two inches of breaking the S. I. A. A. discus record. He easily won the event and tied for a place in the high jump.

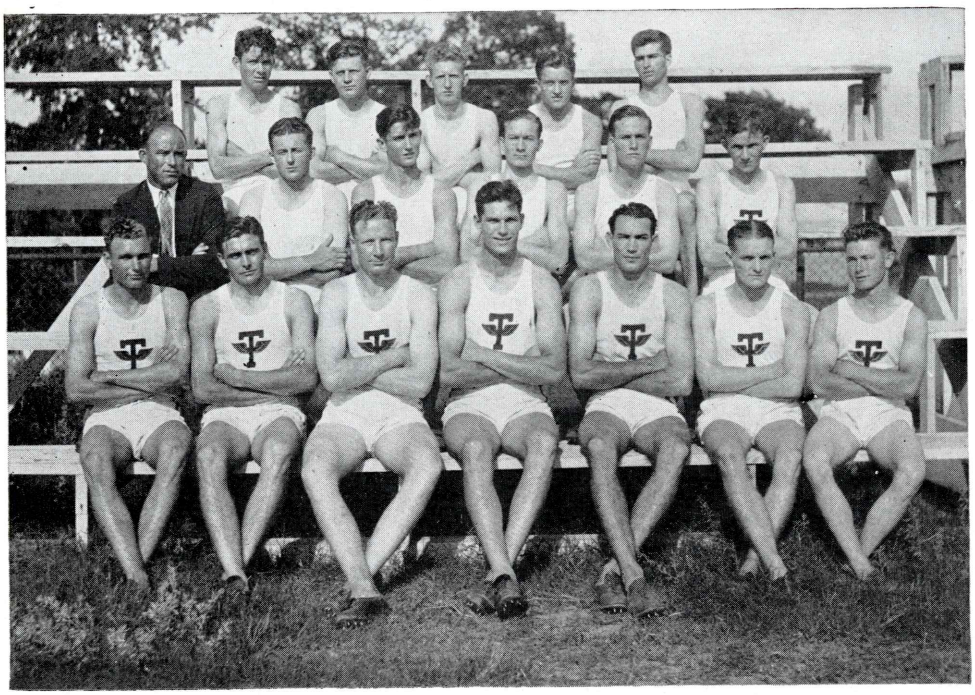

This defeat was soon avenged by the Bulldogs, when they humbled the Mississippi College Choctaws, who later won the conference championship. The meet was one of the sensational kind that so often appear in the sport story magazines, but seldom before the public. Tech's margin of win was one point, the results being: Tech 60½ and Mississippi College 59½. The meet was by far the best that Bulldogs had participated in this year, and the victory was not cinched until Jackson, Lowery, Peel, and Carleton carried away the event. The relay had been considered a Choctaw win and the Techmen were not expected to make any serious threat, but they not only won the event, but also held the lead in every lap.

Jim Yeldell, captain of the Tech squad, bettered the S. I. A. A. distance in the event by eight and one half inches. His toss went for 130 feet 4½ inches, and is his best mark this year. Lowery led the Bulldogs in points scored. He won both hurdle races, and second in the 220 Yard dash and was a member of Tech's winning relay team. Patterson ran Lowery a close second in point honors. He won the high jump and second in point honors. He won the high jump and second in the broad jump and hurdle events. Two other men lettered in this meet

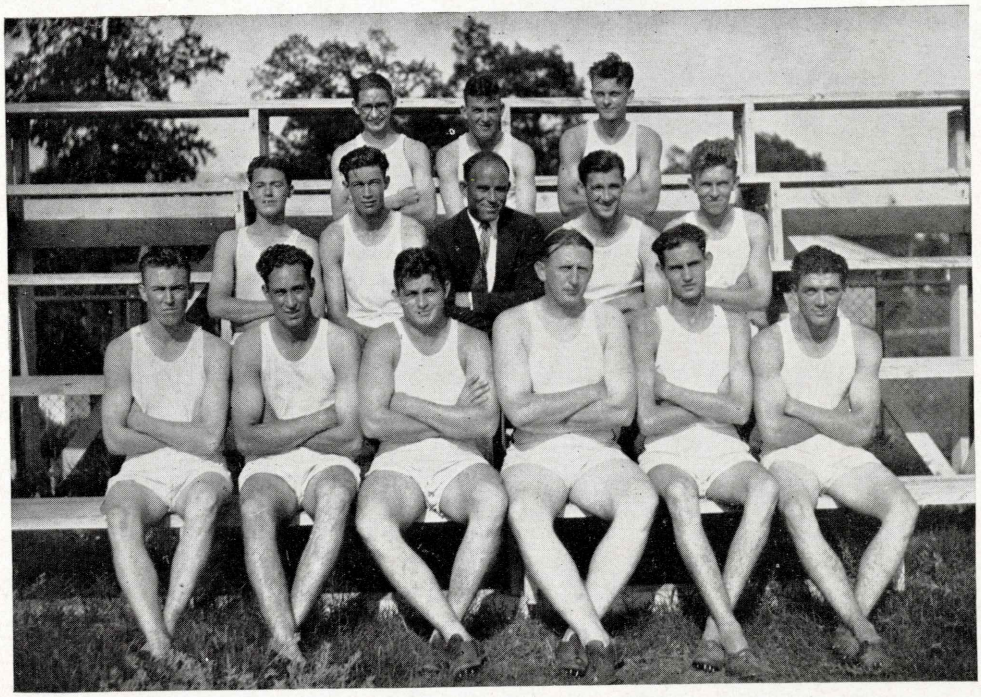

These were Noah, who won the 880 yard run, and Savoie, who won second in the shot put and javelin events. Up to date, nine men of the squad have earned for themselves the winged "T".

When everything looked rosy for a conference championship old man luck intervened and left Tech the victims. Mississippi College won the title quite easily and the Techmen had to content themselves with third place. The Bulldogs had hard luck in several events. Once by a disputed foul and another when Lowery suffered a spill in the hurdles. Lowery was even with the Oglethorp man when his shoes caught on the hurdle, and would have won the race, even though a new conference record was made. Captain Jim Yeldell had, probably the worst luck of all. He took a trial throw at the discus and threw the "biscuit" a good 129 feet, though handicapped by a bad annkle. In the competition Jim lost out to the Mississippi man at 122 feet. Another remarkable feature was the way in which Peel stepped his way into a first in the 440 after getting off to a bad start due to the flu. He will bear watching in the future. The scores are as follows:

Mississippi	55	Normal	15
S. L. I.	39	Centenary	12½
Tech	20	Pres. College	4½
Oglethorp	15	La. College	3

To letter, Coach Shirley required a first, two seconds, or seven points in a single meet. With the exception of three men all of the letter men earned their letters in the first meet of the season, a dual meet with Centenary. The other three men lettered in the meet with Mississippi College. Those men to letter in that meet were Savoie, Carleton, and Noah. Following is a list of lettermen and the divisions of the sport which they participated in:

Capt. Jim Yeldell, discus and shot.
Lowery, high and low hurdles, 220 yd. dash and mile relay.
Patterson, hurdles, javelin, high jump and broad jump.
Savoie, javelin, discus and shot.
Carleton, 100 yd. dash, 440 yd. dash.
Noah, half mile and mile runs.
Jackson, half, mile, two miles, and mile relay.
Sheppard, two miles.
Peel, 100, 220, 440 and mile relay.

Capt. Yeldell is the only man to be lost to the squad this year. He, along with Peel and Lowery, were the lettermen from last year that Coach Shirley had to build this year's team around. According to the statistics, the Tech team could defeat any team in the conference, for it defeated Mississippi College, who won the Conference Championship. But the past is the past, and according to the indications, the future will hold a great deal in store for the track enthusiasts for Coach Shirley will have a crack team that will be hard to beat.

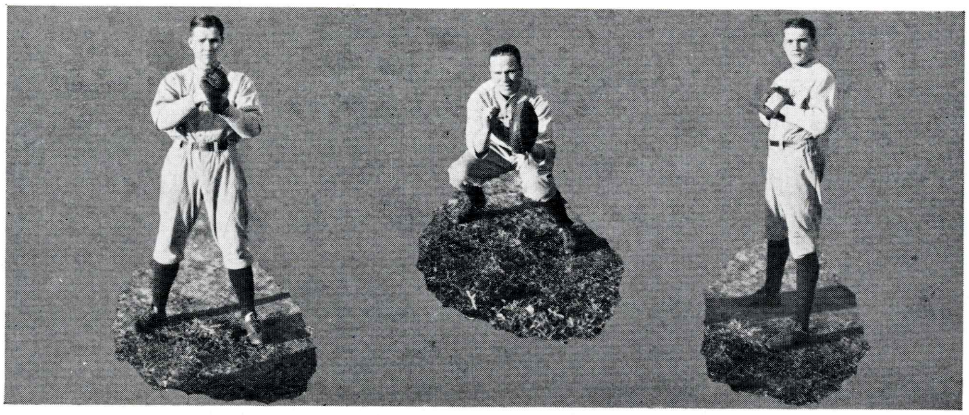

Summary of Meets

Tech 89, Centenary 43; Tech 58, Arkansas Open Meet ¾; Tech 60½, Mississippi 59½; Tech third, Triangular Meet; Tech 20, Championship Meet,

Track is practically in its infancy at Tech, having been placed in the realm of serious athletics by its present coach, "Ernie" Shirley. It has created a great interest and won a place in the hearts of Tech students because of the popularity of the Coach, the players, and above all its success in its first years.

Tech	89	Centenary	43
Tech	58	Arkansas Open Meet .	¾
Tech	60½	Mississippi	59½
Tech	3rd	Triangular Meet	
Tech	20	Championship Meet	

Baseball

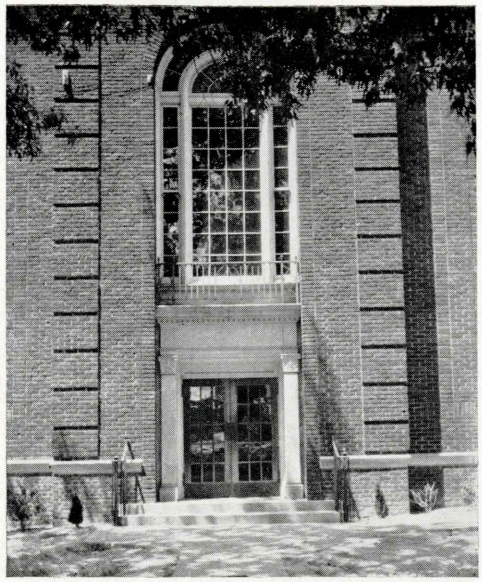

LANE SHARMAN QUITMAN LONG GALE BUNHAM

Coach "Big Ed" Shirling of Auburn Football fame and later an outfielder of the Philadelphia Athletes had a difficult task in putting a creditable team on the diamond. The dependable Bagwell had graduated and left-over regulars did not return, so a pitching staff had to be made from green material. Watts, Gleason, McFarland and Donald were the men who were developed. Behind the bat, Long supplied the needed punch in hitting and was an excellent receiver. Clinton helped out behind the bat when he wasn't in the outfield.

After three weeks of subbing for Boss, now with the Washington Senators, Hamilton had a chance to show his stuff on first base· a good fielder and a fair hitter. Captain Willis, at second played a clever game. He pitched a winning game against Louisiana State Normal. Ratcliff at short played a consistent game and was the heaviest hitter on the Tech team. Hinton at third played "heads-up" baseball and proved a valuable man in a pinch. Cole led the outfield by virtue of his speed, hitting and fielding. Cole clouted two homers against Centenary---both drives clearing the wall at Beidenhorn Park. He is now with Little Rock and will no doubt be in the majors in a few years. Willis, an excellent fielder, Sharman a good fielder and a good hitter, and Riser, a hitter, rounded out the outfield.

From games won and lost, the record is not so good but the team played real baseball at all times, and Coach Shirling deserves a world of credit for the showing the boys made.

All four games were lost to Centenary, three out of four to Millsaps, four out of four dropped to Mississippi College, but the season closed with a blaze of glory with two wins over Louisiana State University, at Baton Rouge.

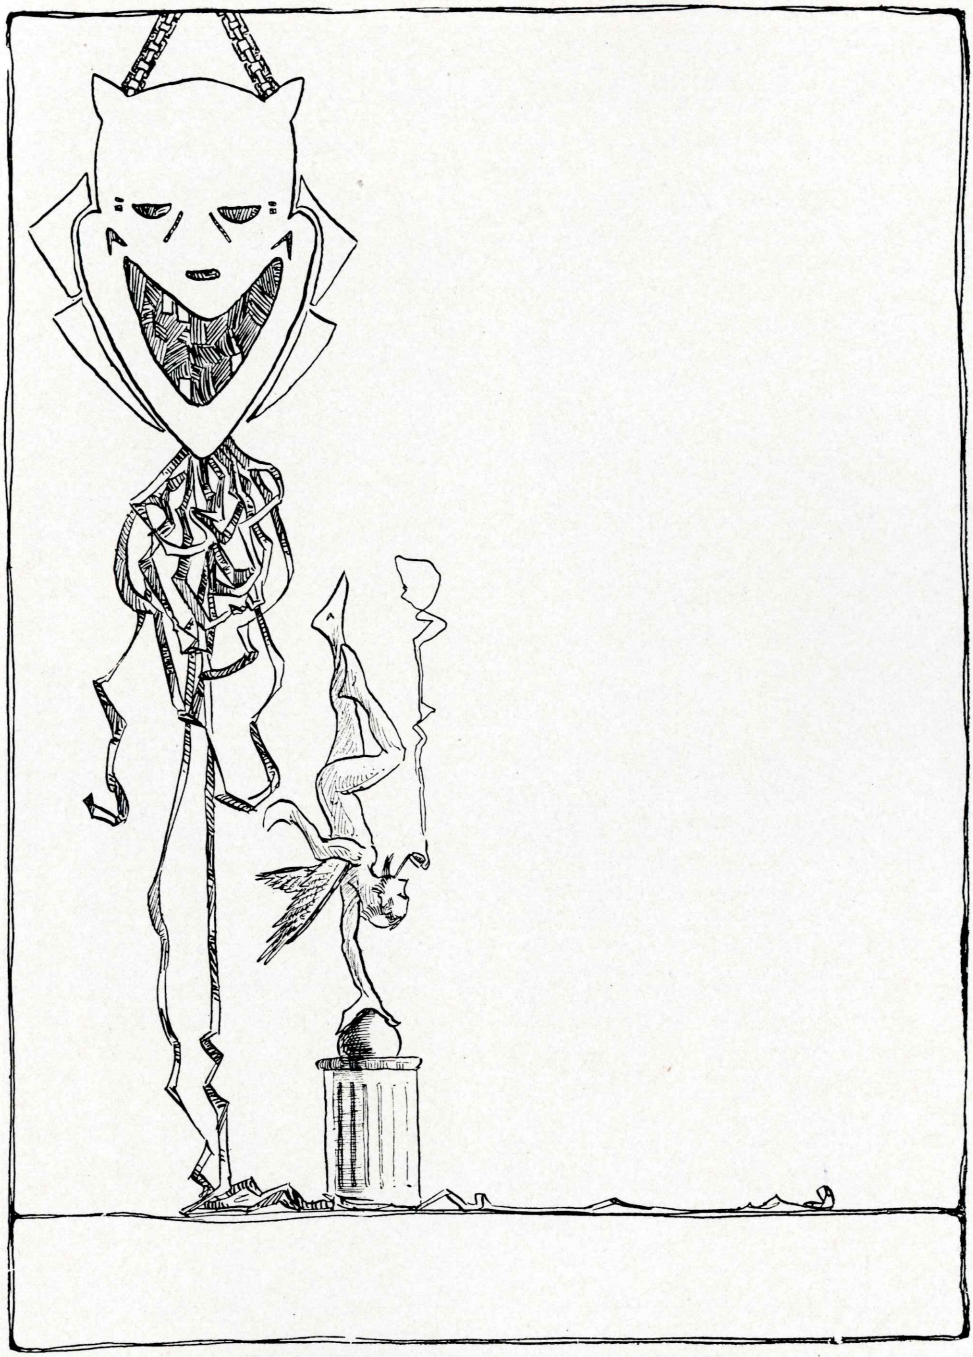

ACTIVITIES

The students who represent Louisiana Tech in the following section were elected by Popular vote in the regular Feature Contest.

The contest, which is held during the Fall Term of each year, arouses much interest among the Student Body, Faculty, and Friends of Tech.

It is with great pleasure that we give this section of Lagniappe to these outstanding figures on the campus.

1927-1928 Band O'Glee Tour

In the Spring of 1928, the Band O'Glee Girls made their first concert tour, with Mr. Fred Masters Holloway and Miss Vera Alice Paul as directors.

The club consisted of thirty girls, and the itenary included ElDorado, Texarkana, Magnolia, Arkansas, Ruston, Shreveport, Minden, Monroe, Homer, Louisiana, and Marshall, Texas.

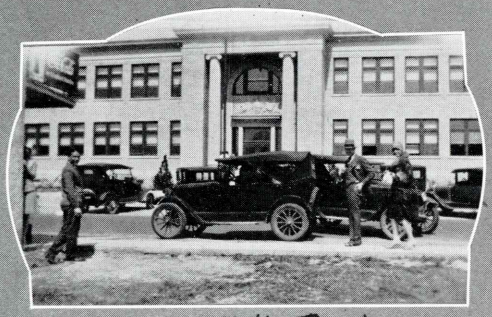

The club was well received everywhere, and has been asked to return to these different towns for future performances. 1927-'28 marked the beginning of an annual Spring Tour for the Girls' Glee Club.

The purpose set forth by this organization is to encourage scholastic ambition and a spirit of unity and fellowshp; and to mark in a fitting manner those who by their high record as undergraduates, or by their attainments as alumni give promise of future advancement to the field of Engineering.

HISTORY

To better carry out the above purpose this organization, which has existed in mind since the founding of the school, was thoroughly unified in 1927.

The Y. M. C. A. at Tech is one of the most active organizations. It is doing its part to unite in one body, the young men of Tech and to establish, develop, and guide as best it can the higher ideals of its members

It is to advance the physical, moral, social, intellectual and spiritual interests of those young men who affiliate themselves with it, and to reach out and take in all those who care to come under its guidance.

PUBLICATIONS

Lagniappe

IVA MAE DOWLING, *Ruston, La.*

Editor-in-Chief

Editor of the Lagniappe her Junior year, 1927-28, and her Senior year, 1928-29, a veritable exception to the old proverb that "Beauty and brains are never found in combination."

In saying farewell as a graduate of Louisiana Tech, she leaves behind her two memorials, representative of two years of hard and efficient work in behalf of Tech's college annual.

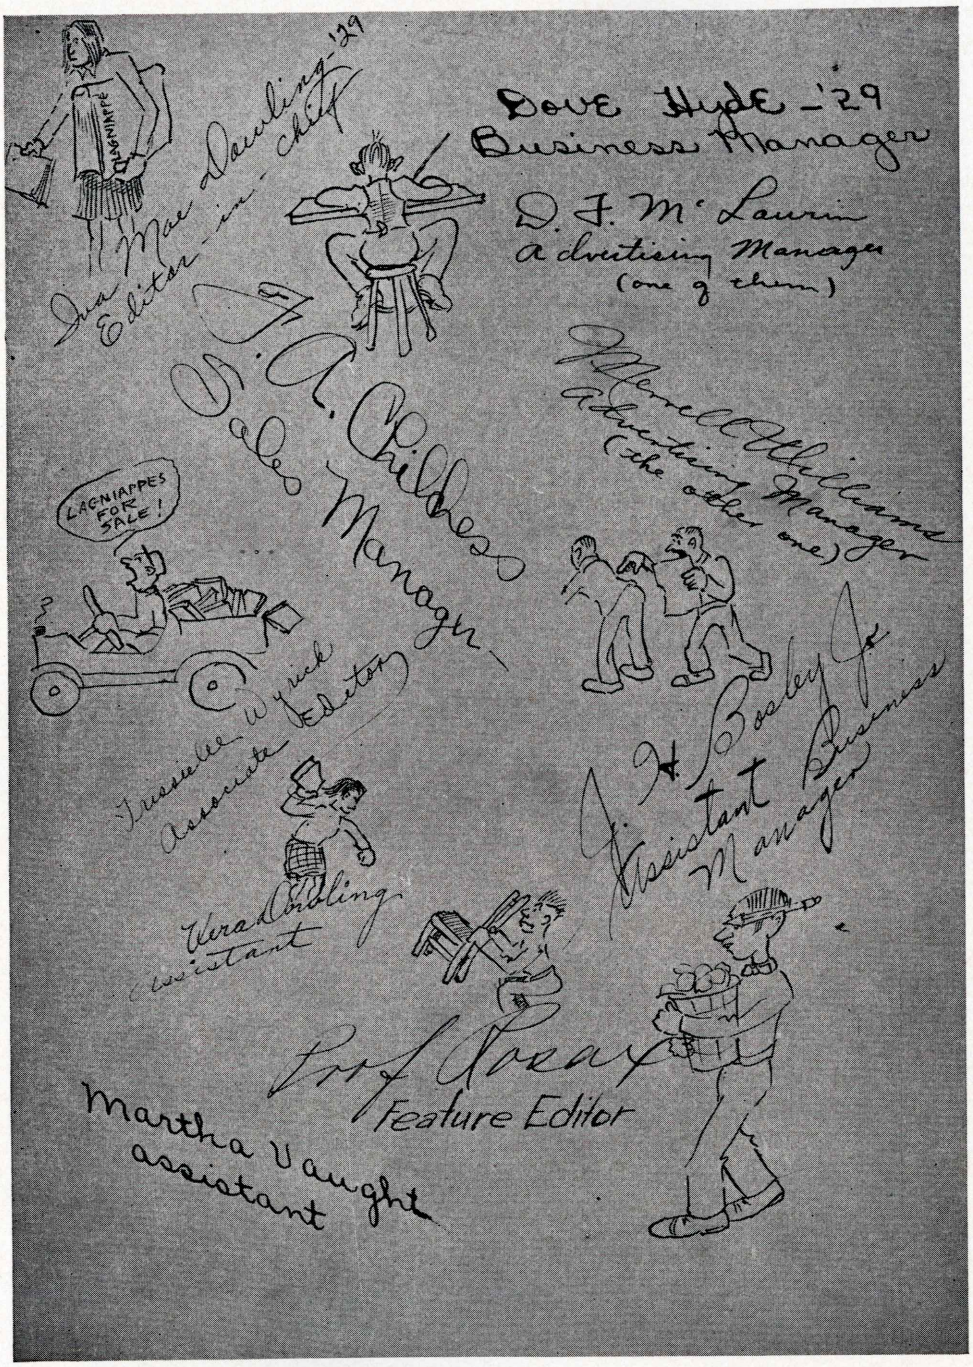

DOVE HYDE, *Minden, La.*

Business Manager

Business Manager of Lagniappe during the spring quarter, 1928, and the year 1928-29. She has shown us that blondes are not always "lightheaded" and that neither sex nor size affect business ability.

In the face of many difficulties she has placed Tech's yearbook on a smooth financial plane.

Tech Talk

ROBERT W. DUBOSE, *Monroe, La.*

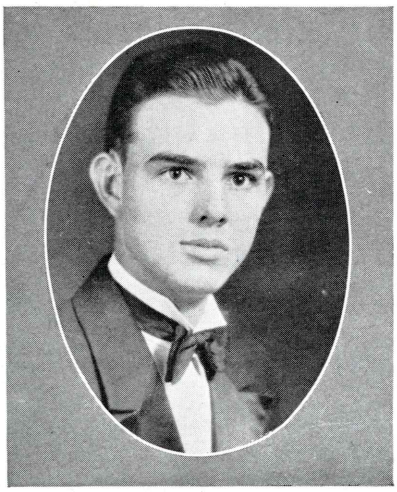

Managing Editor

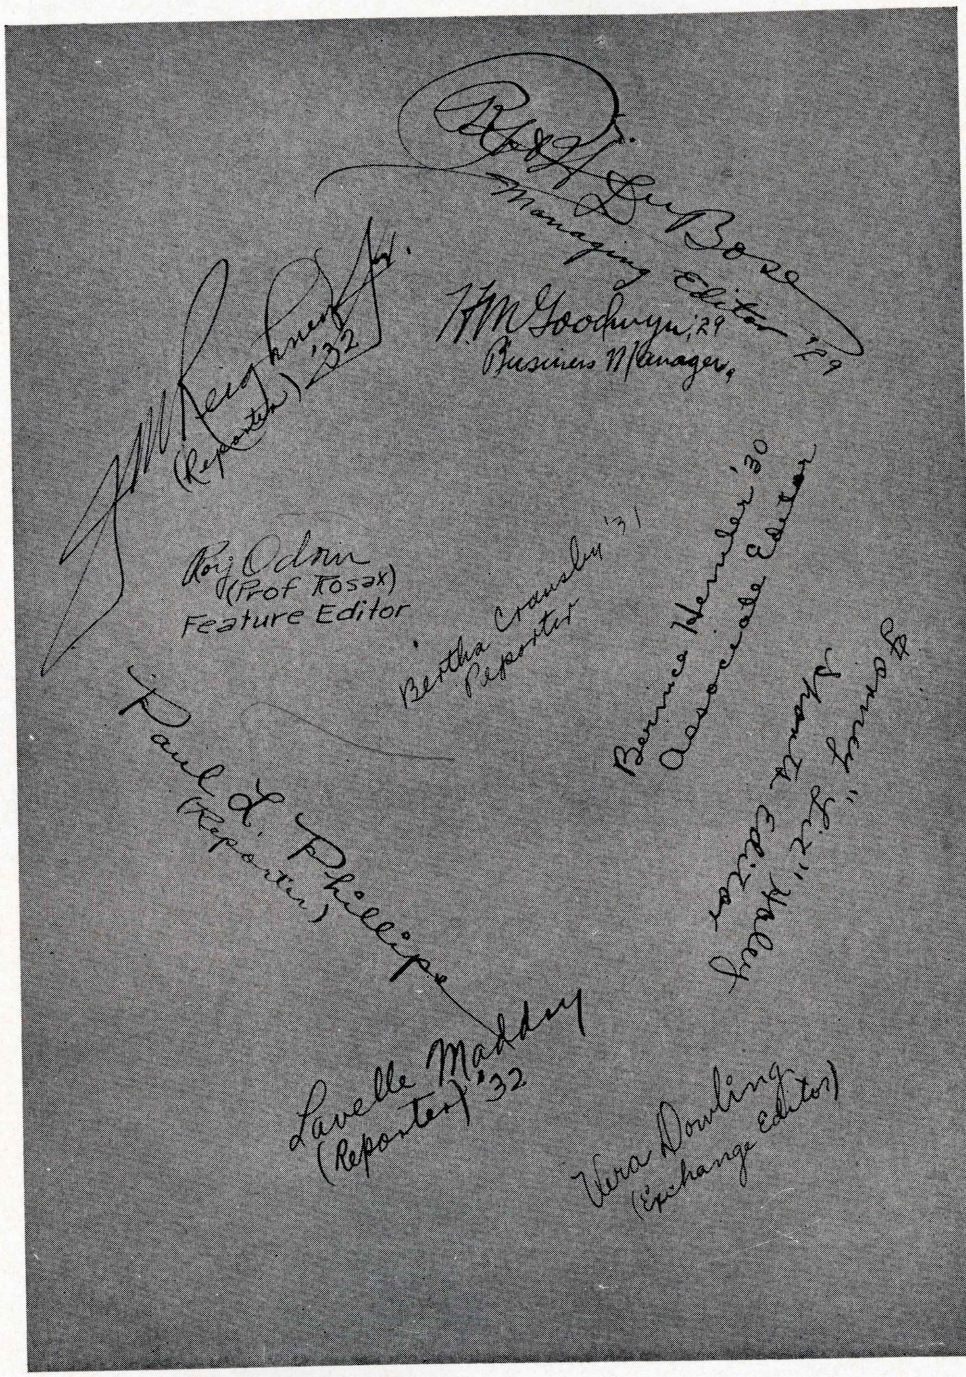

Affiliated with the Tech Talk, as Managing Editor, for 1927-28 and 1928-29. Under his superior direction, the Tech Talk has reached journalistic standards heretofore unattained in the history of the school.

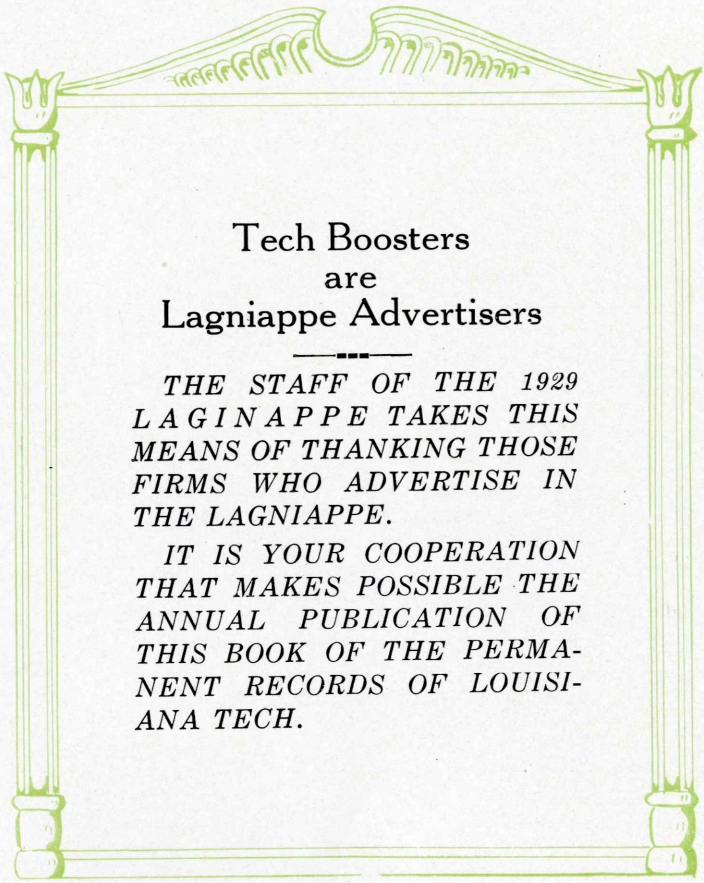

MERRILL GOODWYN, *Colfax, La.*

Business Manager

Affiliated with the Tech Talk as Editor for 1926-27, and as Business Manager for 1927-28 and 1928-29. He is both a journalist and a business man. It is through his capable management that the Tech Talk has reached the stage of perfect co-ordination, financially and editorially.

The New Astor Theatre

A monument to progressive amusements, inspired by the desire to provide our patrons with the highest type of advanced entertainment; built on the foundation of the good will created by fifteen years of faithful entertainment service.

Why Live in Ruston?

Because--

EDUCATION---*A child can enter the first grade in primary school and go through to a college degree.*

HEALTH---*Located in the uplands of Louisiana with water 99 percent pure, assures health, the greatest of all treasures.*

CHURCHES---*A church-going town with all the principal protestant denominations, with arrangements being perfected to enlarge their facilities.*

HIGHWAYS---*Junction Pershing Highway, north and south, Dixie Overland, east and west, together with two large systems of railways, making it the logical gateway to all North Louisiana.*

RESOURCES---*Good citizenship, dairying, agriculture, poultry, schools and unexcelled opportunities for development---these we place first.*

The City of Ruston

EXTENDS A HEARTY WELCOME TO TECH'S FACULTY, STUDENT BODY AND THEIR FRIENDS

The present City Administration is thoroughly in accord with the advancement of higher education, such as is being taught at Louisiana Polytechnic Institute. The young men and young women of this section are being equipped with a technical knowledge of the various departments of Tech, which enables them to master the many problems which will confront them as they go out into practical life.

We are proud of the faculty, the student body, and their associates, and stand ready to assist in any way toward the advancement of our great institution of learning... The student body is held in the highest esteem by this administration.

It is our purpose to build here a City in direct harmony with Tech ideals, to the end that fathers and mothers will feel perfectly safe in sending their children within our midst. We want a modern City in every respect; but, one without the influence which might tend to detract from a desire to acquire higher education, mentally, morally and physically, and we, here and now, pledge our support towards the building of a bigger and better Louisiana Tech and community.
